Flexible Spending Account

The Flexible Spending Account is administered by Benefit Planning Consultants (BPC). The Flexible Spending Account is a voluntary plan with two provisions: First, it allows full-time employees to pay their employee benefit premiums with tax-free dollars. Secondly, full-time employees may also set aside tax-free dollars to help pay for unreimbursed **medical expenses and/or dependent care**. The money you contribute to either FSA account is not

subject to payroll taxes, so you end up paying less in taxes and taking home more of your paycheck.

The Flexible Spending Account can be utilized when enrolled in either the PPO or the Qualified High Deductible Plan (IRS rules apply; see the [Health Savings Account \(HSA\)](#) section, next).

FSA Medical – Current annual limit is \$2,750. You have three ways to access the funds in your account – via debit card, auto reimbursement or manual submission of claims. You have immediate access to 100% of your elected total, regardless of what is actually in your account.

FSA Dependent Care – Current annual limit is \$5,000. This account is used to pay for eligible dependent care services, such as preschool, summer day camp, before- or after-school programs, and child or adult daycare. Access to the funds in the Dependent Care FSA is limited to the amount that is currently in your account at the time you request reimbursement.

This is a calendar year benefit (January 1 through December 31). You can continue to incur expenses to use up the money in either account through March 31 of the following year. Any money not claimed by April 30 will be forfeited.

Health Savings Account (HSA)

If you are enrolled in a Qualified High Deductible Health Plan, you can establish a tax-exempt Health Savings Account with your own funds. These funds may be used to pay for qualified medical, dental, and prescription services. You can enroll in a HSA only when you are participating in a QHDHP. Please note: If you set up and contribute to an HSA with your enrollment in the Qualified High Deductible Plan, the IRS allows participation in an FSA Dependent Care account, but not an FSA Medical account (See the HQDHP & HSA Q&A for further information).

Group Life Insurance

Bradley University offers all full-time employees Basic Group Term Life Insurance through Standard. For monthly-paid employees, the Life coverage is 1-times the employee's annual contract salary up to \$75,000 and is effective on the First of the Month Following the Date of Hire. This coverage is contributory with Bradley University paying two-thirds of the total premium for each full-time salaried employee. In addition, Bradley University provides a matching Accidental Death & Dismemberment policy at no cost to you. Open Enrollment for life insurance is held in November and allows employees to make changes to their life insurance coverage. The life insurance plan year runs from January 1st through December 31st.

The employee pays full premium for the voluntary coverage(s). Open Enrollment for life insurance is held in November and allows employees to make changes to their life insurance coverage. The life insurance plan year runs from January 1st through December 31st.

Short-Term Disability

The University provides short-term disability benefits through Standard to all monthly full-time employees during the regular contract year for absences due to an employee's own serious medical condition (not a family member). All claims must be approved by Standard before any benefit is paid out. There is no cost to you for the Short-Term disability coverage - Bradley University pays the full premium for this benefit.

Full-time regular employees' salary payments will be continued by the University according to the following schedule:

- 1st month - 100% of salary
- 2nd month - 80% of salary

If your leave goes beyond 2 months, Standard then reviews for continued eligibility of benefits. If approved, benefits are paid as follows:

- 3rd - 6 months - 60% of salary

Long-Term Disability

A long-term disability benefit is available for all full-time employees through Standard. New full-time employees have a 1-year of continuous service waiting period before coverage begins. The 1-year waiting period can be waived if they are newly hired by Bradley University within three months of leaving another group total disability plan (proof of prior coverage is required.). The long-term disability coverage is voluntary, and Bradley University pays two-thirds of the total premium for employees through a total disability insurance policy on the first \$2,000 benefit. Employees may elect to pay 100% of the premium to have additional coverage of up to \$5,000 monthly benefit based on salary. If approved, long-term disability becomes effective following the first 180 consecutive days of disability (see Short-Term Disability benefits, above). When eligible for benefits, employees receive 60% of their base monthly salary up to the elected maximum benefit per month, less any benefit from Social Security (including dependents' benefit) and workers' compensation. The benefit paid will never be less than \$100. During total disability, the monthly income and the annuity premium benefit will be increased each year by 3% compounded annually.

Long-Term Care

As an employee, you may purchase coverage during the enrollment period through Unum without having to fill out a medical questionnaire, as long as you do not choose benefits that exceed the Guarantee Issue limits. Your enrollment kit contains complete information on the Guarantee Issue limits. If you wait to enroll, you will need to fill out the medical questionnaire and may not be accepted. This benefit is available for employees and family members. The levels of care that this plan could cover include a long term care facility, professional home and community care and total choice home care. This benefit also can include inflation protection. Retirement 403b - Tax Deferred Annuity (GSRA)

All full-time employees (except students and employees with retirement benefits provided under a collective bargaining agreement) are eligible to participate in the Tax Deferred Annuity 403b plan. An eligible employee can make pre-tax contributions (either percentage or dollar amount) into a wide array of individual investment accounts or one of many pre-packaged "Lifestyle" portfolios that are structured according to your expected retirement date. The Tax Deferred Annuity Plan offers flexibility with loan, hardship withdrawal and distribution options. Limitations on contributions are subject to IRS rules.

***No contributions are made by Bradley University to the Tax Deferred Annuity Plan ***

Retirement 403b - Defined Contribution (RA)

All full-time employees (except students and employees with retirement benefits provided under a collective bargaining agreement) are eligible to participate in the Defined Contribution Plan after completing 1-year of continuous service* from their date of hire. Eligible employees may contribute up to 5% of their base salary and the University matches the contribution up to the amount allowed by the IRS, depending on their postretirement benefit selection. Eligible employees may voluntarily contribute more to purchase additional annuity benefits. However, University contributions are limited to the extent allowable under IRS Guidelines. For employees hired before 10/01/2017, the employee's post retirement selection is only the enhanced Defined Contribution Plan and the University will contribute an automatic 2% upon the employee's eligibility date.

**The term "year of service" is defined as the 12-month period immediately preceding the employee's date of employment with Bradley University during which the employee was employed in a regular non-student capacity and worked 1,000 hours.*
